NOTICE TO TAX COLLECTORS.—An Act of the Legislature and approved June 2nd 1881, (see Pamphlet laws page 45), requires tax collectors, township and borough officers to make returns of seated and unseated lands to the County Commissioner on or before the first day of January next, on a lease provided that the machinery may be removed by force or otherwise, from the purchaser, in case of default of payment. M. C. Woodward and J. B. Tratten were arrested by James Kingsley for taking a machine from his house on such a lease. They were indicted for assault and battery, and when the lease was offered in evidence it was objected to as being a chattel mortgage. The Court sustained the objection and the jury that under the lease the agent had the right to remove the machine, but whether more force was used than necessary was a question for the jury. After some deliberation a verdict of not guilty, but defendants pay costs, was rendered.

Centralia Letter. The trustees of the Glard Estate have made it a rule, to go into effect January 1st, 1884, to take all locomotives from their mines, and employees are strictly forbidden to have stores at the bottom of any of their slopes. Supt. A. D. Brown, of the Continental colliery, is making arrangements to haul the coal to the bottom of the slope without the locomotive. The men employed in this mine will be glad to hear this, as the gas of the engine compelled them to suspend work two or three days a week.

The Buck Mountain vein has been struck in the tunnel at Morris Ridge mine. The vein is about ten feet in thickness, and the finest quality of coal. This is good news to the people of Centralia, as a large number of men and boys are employed at a daily work.

Thanksgiving Day was strictly observed in our borough. The stores presented a Sunday appearance, and the employees of Logan and Centralia collieries, were idle, as Riley & Co. would not allow them to work on that day. These were the only collieries in the region that were idle.

A grand cooking main took place at Logansville on Wednesday evening between "California Brass Band" and the Jersey Gold Brass. The fight lasted about twenty minutes, when the Jersey gold won the fence. Joe followed him but failed to bring him to time. The referee, of course, giving the honors to the California and his admirers, which were very numerous.

The Dark Corner corner band has a beautiful gold watch which will be contested for by Messrs. Monahan, McPadden and McNelis. As the contestants are all determined to win, a handsome sum will be realized. The trial intends to buy new horns in February.

A party of boys walked down Centralia slope on Sunday and broke open the powder box, stealing a large quantity of Duall powder. If they are found out they will be severely dealt with.

The sinking of another new slope has been started at Logan colliery. A large force of men were busy last week making preparations to put in a double engine. This is a very different task, as the new slope will be sunk inside the old one.

A young man named Kuff had three of his fingers blown off while gunning on Monday.

A young man named Michael Kennedy employed at the Big Mine Run Colliery, was struck by an empty wagon, which ran over the dirt plane, on Monday. His back was broken and he was injured internally. He died a few hours after being taken home.
